JOB SPEC SUMMARY

Are you a computer gaming enthusiast? Want to contribute to a startup which develops the most advanced liquid cooling solutions to date? Do you *thrive* on the adrenaline of making new products? Are you excited about being on the ground-floor of a startup spun out of GA Tech?

EMCOOL, Inc. is a startup that builds advanced computer systems for gamers using proprietary microfluidic cooling; a new technology that enables unparalleled processor acceleration with the industry's lowest chip temperatures.

Who are we looking for? As **CNC machining specialist and system integrator**, you will be responsible for creating EMCOOL's patented core microfluidic cooling technology. This component is at the heart of every EMCOOL product (EMkit, EMbox and EMdesk, see: www.em-cool.com) and is the reason for their world-leading performance. In addition, you will assist with the integration and assembly of systems for delivery to EMCOOL customers. This position requires familiarity with and experience in operating multi-axis CNC machines for production of plastic and metal components. This position requires passion, dedication, tenacity, attention to detail, a willingness to learn and grow, and a love of being involved in a startup. Most importantly, it requires an ability to be flexible and adaptable as the roles demand.

What will be the nature of your activities at EMCOOL?

- Run custom CNC tool to machine necessary components (metal, acrylic, etc.).
- Follow all necessary equipment safety and maintenance protocols.
- Assemble computer components and kits to build finished systems for customer delivery.
- Assistance with system packing and shipping as needed.

Qualifications

- This position requires familiarity with and experience in operating multi-axis CNC machines for production of plastic and metal components.
- General PC hardware knowledge.
- Highest ethical business practices, honesty and transparency.
- Excellent time-management skills and ability to work effectively in an unstructured environment.

Compensation

- The full-time position is available immediately on a consulting basis, with opportunity for conversion to a salaried appointment for the right candidate

Please send your resume and cover letter to: info@em-cool.com
